## ENVIRONMENTAL POLICY

### TERMINAL DE CONTENIDORS DE BARCELONA, SL

---

**Terminal de Contenidors de Barcelona, S.L.**, is aware of the current aspirations of our society upon an improvement of the activities' behaviour related to the respect towards the environment. TCB is aware of the environmental implications of its **activity of container loading and unloading**, so establishes its **ENVIRONMENTAL POLICY** with the following commitments acquired by its General Management:

1- **ACCEPTS** all its responsibility about the protection of the environment; is committed in preventing and reducing pollution, as well as implementing continuous actions to improve its environmental behaviour in its scope of influence and within its real possibilities.

2- **IT IS COMMITTED TO:**

- Comply with the law about the activities of the company as well as other requirements which are not directly reflected to the company through a transparency policy and continuous audit.
- Establish a process of continuous improvement through a definition of objectives related to their significant environmental aspects. Provide an appropriate frame to execute and revise these objectives.

3- **INTEGRATES** environmental considerations in the Corporate Strategy, using environmental criteria in planning procedures and decision making. They are appropriate to the nature and environmental impact magnitudes derived from its activities.

4- **TRAINS** and adopt the necessary measures to encourage the sensitization and the commitment to the protection of the environment of company staff and its main business partners.

5- **MANTAINS** effective channels of communication with the community inside and outside of the port area.

6- **ENSURES** that this Environmental Policy is accessible to everybody.

All employees must know this policy and put it in practice in their jobs.

**CARLOS LARRAÑAGA**

**General Manager**
